Scouting The Shops

With Sally

Numbers in a goldfish bowl have so absorbed everyone's attention this week that we thought we'd try a lottery of our own.

Of course, we haven't any goldfish bowl, but look at the lovely numbers:

ONE: this does not mean you have to be a soldier. It means you have only ONE chance to save that falling hair. S. O. S. for Vitalis from McGraw Brothers Pharmacy.

TWO: we interpret this number to indicate that there are no TWO ways about it—Beeson Cleaners will do a wonderful job on your clothes.

THREE: at the Daly City theatre, "THREE Faces West" will keep you entertained these cold nights.

FOUR: you won't need FOUR quick ones at Gelsi's Place to convince you that Gelsi's sells fine liquors.

FIVE: we ate FIVE cookies in a row the last time we were at the Geneva Bakery. And we're not sorry.

SIX: for only SIX months' subscription to The Daly City Record your own home-town newspaper, you will get a free box of Christmas cards.

SEVEN: SEVEN shaves with old-fashioned mug methods won't make you feel as good as one good shave at Acton Barber Shop.

EIGHT: there's no need to get behind the EIGHT-ball with your dog. See Miriam Grocery in a hurry.

NINE: NINE little Indians would all be pleased if their mothers gave them new fall eating apples from Daly City Cut Rate Market.

TEN: for only TEN cents, ladies and gentlemen, just one dime,

Milo's Market Specials On Pages 6 and 7

Daly City is a prosperous, attractive community—every local firm is busy. People here reflect an air of enthusiastic happiness.

Pictured here is the east side of Mission street at the top of the hill. At the right is Milo's Market DeLuxe. Today Milo's Market inaugurated in your eighteen-month-old Daly City Shopping News the first regular two-full-page or double-truck ad. For Milo's Market specials this week, see pages 6 and 7.

Tough Montana Hombre

When an unknown but tough "hombre" dropped a nickel in the telephone of a drug store at Butte, Mont., and got the wrong number, he promptly drew out his six-shooter and blasted away at the mouthpiece.

Government 10-Hour Day

Employees of the United States government went on a 10-hour day in 1840. It was done by executive order.

'Self-Made' Farmer

Charles McCartney, a farmer near Sigourney, Iowa, uses only articles of his own making. He built his own house, furniture, barn and plow. He and his family wear only goatskin clothing, which he makes himself.

Co-operative Marketing

Co-operative farm marketing and purchasing associations are doing a gross business of $2,750,000,000 annually.

Weatherbeaten Woodwork

A method by which an old weatherbeaten effect can be achieved on new knotty pine woodwork has been devised by paint authorities. Paint experts advise the sponging of the surface with a fairly strong solution of ammonia or soda. If a dark finish is desired, make a stain of raw umber thinned with turpentine and add enough varnish to bind it. Prepared varnish stains are available for this purpose if preferred. A thin coat of reduced shellac or dull varnish may then be applied, followed by a coating of wax.

First Hospital Chair

According to the minutes of the Pennsylvania hospital for September 28, 1788, Thomas Affick, by many considered the superior of Philadelphia's famous cabinetmaker William Savery, presented the hospital with a curious mahogany chair for the easy removal of sick patients. The chair was valued at 12 pounds.

Australian Canned Flowers

Dr. J. S. Turner, a professor at the University of Melbourne in Australia, according to the American Magazine, has devised a method of canning flowers.

U. S. Farm Imports

U. S. imports of agricultural products, except forest products and distilled liquors, have averaged $1,582,000,000 annually for the past 16 years.

Towers of Silence

The tower of silence is the name applied to structures built by the Parsees for the disposal of their dead. They are towers about 40 feet high called dakhmas. Below the top of the wall is built a floor of iron grating and upon this the bodies are placed until by exposure to the elements and birds of prey the flesh is entirely removed from the bones and they fall into a pit below.

WAS DISINHERITED BY HER FATHER, ODELARD, A BURGHER OF BRABANT, BECAUSE SHE RINSED OUT HIS GOBLET BEFORE USING IT HERSELF! . . . HE CONSIDERED THE ACT LACKING IN FILIAL RESPECT, AS IT WAS THOUGHT A SIGN OF DEVOTION FOR FAMILY MEMBERS AND FRIENDS TO SHARE THE SAME CUP!
WHEW!
THE COOK OF SHAKESPEARE'S DAY WAS COMMONLY SO UNKEMPT, HE DESCRIBED HER THUS "MARRY, SIR, SHE'S THE KITCHEN-WENCH AND ALL GREASE . . . I KNOW NOT WHAT USE TO PUT HER TO BUT MAKE A LAMP OF HER AND RUN HER BY HER OWN LIGHT!"
THE MODERN CUSTOM OF SEATING MEN AND WOMEN ALTERNATELY AT DINNER COMES FROM THE MIDDLE AGES WHEN A MAN AND HIS WIFE WERE SUPPOSED TO SHARE THE SAME TRENCHER!
THE FIRST FORK BROUGHT TO AMERICA WAS FOR GOVERNOR WINTHROP IN 1633 . . . IT WAS KEPT IN AN ELABORATELY MADE SPECIAL LEATHER CASE

'Youthful' House Paint

Home owners faced with the problem of making old houses look younger may try coloring them with "youthful" paints. This can be done with almost any type of construction. Side walls of wood, brick, or stucco may be painted with paints specially prepared for each surface. Roofs may be covered with one of several different types of factory-colored shingles, and color accents may be provided in window blinds and front doors. A popular new exterior color combination consists of light salmon-colored walls, emerald-green roof, and a flame-colored front door.

British White Paper

The official reports or communiques issued by the British government periodically are known as Blue Books. Occasional reports, which usually are not so extensive, are called White Papers.

Discovery of Tangier

In June, 1608, during his exploration of the Chesapeake bay and the Eastern shore, Capt. John Smith discovered Tangier island and named it after the seaport in Morocco.

Royal Neighbors Plan Bazaar-Whist

Dainty embroidery work, delicious home-cooked foods and other attractive items will be offered for sale today at the combination bazaar and whist party sponsored by Royal Neighbors of America, Vista Grande Camp No. 6035.

The bazaar begins at 4 p. m. at Eagles hall, 6276 Mission street, with Mrs. A. Ainsworth and Mrs. Lillian Parker in charge. The whist party will start at 8:30 p. m. under the direction of Mrs. Grace Coolish, chairman. There will be a first cash prize and many other worth-while awards. The public is cordially invited.

Catholic Ladies Aid Whist, Nov. 6

Catholic Ladies Aid Society, Branch 59, will hold a benefit whist party at 2 p. m next Wednesday, November 6, at St. Michael's hall, 32 Broad street.

A cash first prize and numerous other awards will be given away to card players. Mrs. Martha Morgan, chairman, cordially invites the public to attend.

Kentucky's Crime Bill

Kentucky spends nearly $750,000 net each year prosecuting felonious crime.

'Gone With the Wind'?

Members of congress have been asked to help suppress the moving picture, "Gone With the Wind." The Malcolm Ammidown Woman's Relief corps, of Southbridge, Mass., wrote to senators and representatives urging the film be banned as "an insult to the Grand Army of the Republic."

Shakespeare

Shakespeare is credited with having had 24,000 words in his vocabulary.

Titanic's Memorial

On the banks of the Potomac river in Washington, D. C., stands the Titanic memorial, sculptured by Gertrude Vanderbilt Whitney, in tribute to the men who responded with their lives to the cry of "Women and children first" as heard the sinking Titanic. It was donated in 1937 by the Women's Titanic Memorial association.

U. S. Milk Production

Seventy per cent of the 7,000,000 United States farms produce milk.

Appetizing Menus to Highlight Fall Festivities

Photo Courtesy Pepsi-Cola

With vacation time a thing of the past, and with the children all settled at school, home entertaining resumes its place in everybody's social scheme. Sunday night suppers or after-theatre gatherings are fun for hostess as well as guests, if they feature easy-to-prepare, tasty dishes. Here is a menu for six which is guaranteed to make your guests smack their lips, and at the same time leave you free to make yourself as pretty as possible. If used for after-theatre, the cooked dishes may be prepared in the afternoon and warmed up before serving. The cola beverage, which comes in twelve-ounce bottles, takes account of one's budget, only three bottles being needed to fill six glasses.

MENU

Pepsi-Baked Ham
Brown Bread
Hot Baked Beans in Casserole
Mixed Green Salad
Bowl of Raw Fruits and Nuts
Iced Cola Beverage

Recipe for Pepsi Baked Ham

1 small smoked ham
1 cup brown sugar
2 tablespoons whole cloves
1 twelve-ounce bottle Cola beverage

Have ham at room temperature. Wrap in heavy paper. Bake in open roasting pan in moderate oven (325 F), 18 minutes to the pound. Remove skin. Cut diagonals across the fat to form diamonds. Cover with brown sugar. Stick a clove in each diamond. Return to the oven. Baste with cola beverage, and increase oven heat to bring ham to a rich brown.

Australia's Future

Pointing to "Australia's future place in the Pacific, her very existence perhaps" Prof. Stephen H. Roberts urges the New South Wales government to teach American history in its schools.

Fireproofed Cotton Insulation

The possible use of fireproofed cotton as an insulating material in the construction of homes, office buildings, and other structures has been suggested in Texas, where such a process has been developed.

Beau Brummel, Jr.

Who said boys hate to dress up? Keep it comfortable and keep it masculine and you'll have no trouble getting him into that Sunday suit. This young man with the lollypop wears a brand new but comfortable rough finish blue miniature hat with blue, accordion pleated band—an exact duplicate, incidentally, of his dad's sport hat. The two button, lower-school suit is also brand new and is made of bright navy corduroy. The jacket collar is finished plain so that the wide shirt collar will lie flat all around.

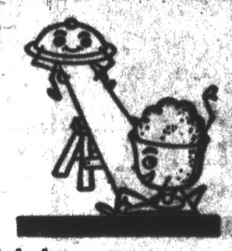
Cool Weather Tasties

By Frances Lee Barton

IT'S time to increase your daily calories. The body needs more food in cold weather than in warm so our favorite last-bite can be more nutritious without fear of over-eating. Here is a dish that is so filled with fruit and fruit juices that it acts as an excellent meal balancer:



Apricot and Pineapple Tapioca

½ cup dried apricots; 3 cups apricot juice and water; ⅓ cup quick-cooking tapioca; ⅛ cup granulated sugar; ¼ cup brown sugar, firmly packed; ¼ teaspoon salt; 2 slices canned pineapple, finely cut; ½ cup pineapple juice; ½ tablespoon lemon juice.

Cut apricots in half, cover with water and soak 2 hours. Cover, and simmer 15 minutes, or until tender. Drain, measure liquid and add enough water to make 3 cups. Combine with apricots, tapioca, and remaining ingredients in greased baking dish, mixing thoroughly. Bake in moderate oven (375° F.) 30 minutes, or until done, stirring every 10 minutes, and again when removing from oven. Serve with cream. Serves 8.

Roll Out the Rolls

By Frances Lee Barton

ROLL out the rolls and we'll have a lot of fun. Sprinkle them with pecan meats and watch them disappear. A butterscotch pecan roll, a dish of marmalade or jelly, a cup of tea or coffee — what more do we need for that before-bed bite?

Butterscotch Pecan Rolls

2 cups sifted cake flour; 2 teaspoons double-acting baking powder; ½ teaspoon salt; 4 tablespoons butter or other shortening; ⅔ cup milk; 2 tablespoons butter; ¼ cup brown sugar, firmly packed; 4 tablespoons butter; 4 tablespoons brown sugar; ½ cup chopped pecan meats.

Sift flour once, measure, add baking powder and salt, and sift again. Cut in shortening; add milk gradually, stirring until soft dough is formed. Turn out immediately on slightly floured board and knead 30 seconds, or enough to shape. Roll ¼ inch thick. Cream together butter and sugar and spread on dough; roll as for jelly roll and cut in 1-inch slices. Melt 4 tablespoons butter in 8x8x2 inch pan, add 4 tablespoons brown sugar, and mix well; sprinkle nut meats over top. Place rolls in pan, cut side down. Bake in hot oven (425° F.) 15 minutes; then decrease heat to moderate (350° F.) and bake 20 minutes longer, or until done. Remove at once from pan. Makes 10 to 12 rolls.

When rolls are baked in a smaller pan, use less butter and sugar for mixture in pan.

Midway Islands Discovery

The Midway islands were discovered on July 5, 1859, by Capt. N. C. Brooks of the American-owned Hawaiian bark, Gambier, who took possession in the name of the United States. Captain Reynolds, in the U. S. S. Lackawanna, took possession formally on August 28, 1867.

Revolutionary Borrowing

Over $500,000 in cash was borrowed by the United States during the last two years of the Revolutionary war, according to a study of "Business Enterprise in the American Revolutionary Era" issued by the Columbia University Press.

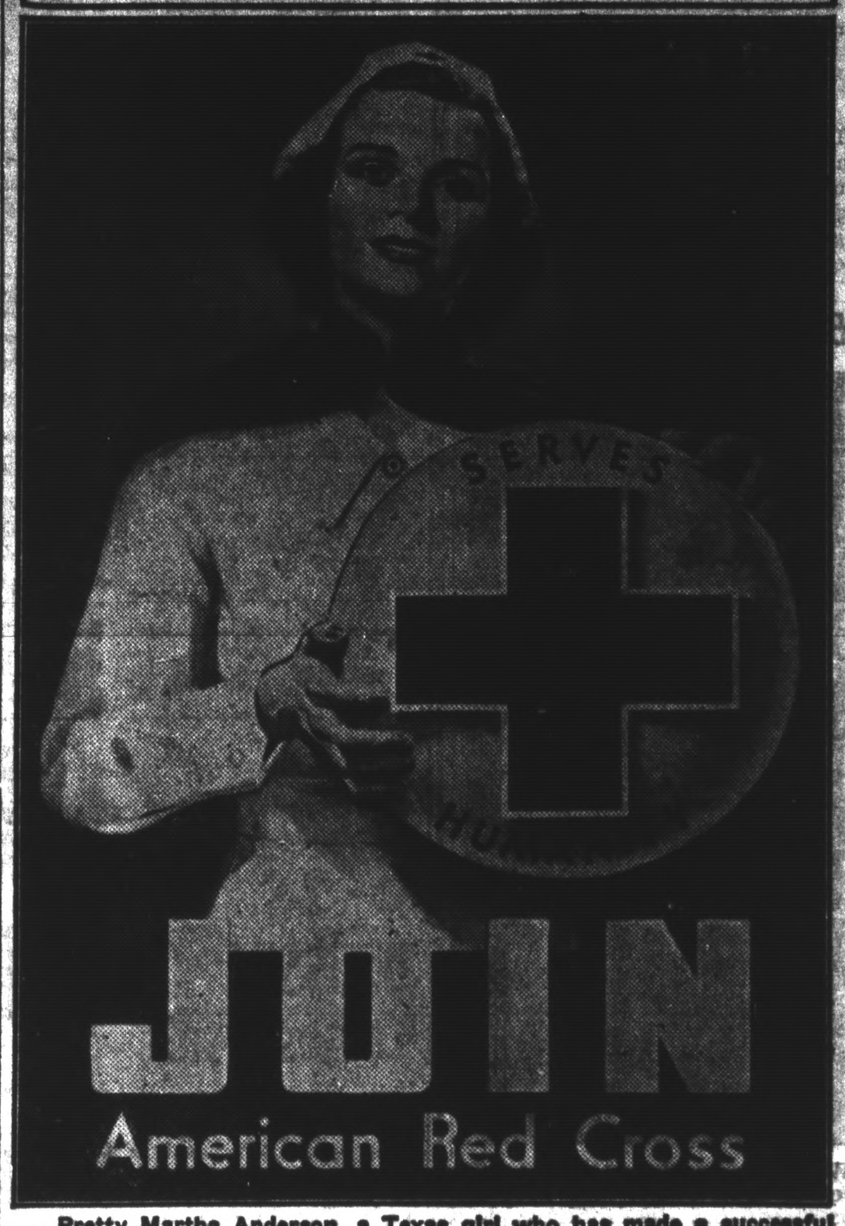
Hatless Fad Not New

The hatless fad, which was at its height in '32 and '33, was neither new nor collegiate. It dated back before the American Revolution to the time when English dandies carried their hats in their hands to avoid mussing their curled and powdered wigs.

Money in Your Pocket

You don't have to shoot the bill collector or put in a new furnace to save on your winter fuel bill. Scientists of a major glass company have found that savings up to 30 per cent can be obtained by "window-conditioning" a house with storm sash.

1940 RED CROSS POSTER



Pretty Martha Anderson, a Texas girl who has made a successful career as a model for photographers and artists in New York, posed for the 1940 Red Cross Poster, calling to all patriotic men and women to join the American Red Cross Chapter in their communities from November 11 to 30. Ray Morgan, a distinguished New York portrait and poster artist, created the design, which emphasizes the keynote that the Red Cross "serves humanity."

Treaty of Ghent

At Ghent, in Flanders, on December 14, 1814, the famous peace treaty was signed which formally declared at an end the War of 1812 between England and the United States. News of the treaty did not reach this country until February and fighting was still going on in Louisiana.

Package Receiver

A package receiver, installed in the wall of the kitchen, is a useful but not costly feature which adds considerably to the comfort of the family and to efficiency in the home. It has a self-locking door which opens outside and is insulated and ventilated. Another useful feature in the home is a laundry chute, particularly for homes with basement laundries and second-floor sleeping quarters. They are installed in the walls and have vertical shafts which permit soiled clothes and linen to be dropped directly to the laundry.

Chemical Energy Relationships

Today chemists without having to conduct a single experiment can frequently calculate whether a certain product can be produced from new and untried raw materials, the American Chemical society reports. Energy relationships are studied to learn whether or not an untried reaction will liberate free energy. Energy has a natural definite tendency to scatter, and this tendency provides the driving force of chemical reactions.

Movie Fan

On a visit to the penal colony on Devil's island, French Guiana, Cameraman Pierre-Andre Martineau discovered the world's most enthusiastic movie fan. He was a convict whose body bore tattooed portraits of Garbo, Marlene Dietrich, Mary Pickford and other film stars. His gallery is now complete; he has no more room for pictures.

MARK YOUR BALLOT THIS WAY
SUPERVISOR — 1ST DISTRICT

THOMAS L. HICKEY | X

★ IN THE SPOTLIGHT ★

By David O. Alber

What in theatrical parlance is called the "road" will come in for heavy travelling this season, with Broadway successes going into the highways and byways. Theatre Guild is sending out Katherine Hepburn in "Philadelphia Story" and "Ladies in Retirement", a thriller, with Flora Robson. Ezra Stone plans to tour "Your Loving Son" before bringing it to Broadway. "The Little Foxes", Tallulah Bankhead's success of two seasons ago, has an extensive tour planned and there will be a road company of "Hellzapoppin", that bombinating slapstick musical. And if that weren't enough, several radio programs will take to the road, notably Ralph Edwards' "Truth or Consequences" Saturday evening NBC funfest, which will shortly be aired from key cities throughout the country.

• • •

HOW LONG SARONG: Don't expect Dorothy Lamour to put her sarong on a shelf for some time. This erstwhile radio songstress, who made good the sarong way, can shop for another supply, what with three Paramount pictures, calling for display of acres of epidermis, in the offing. Now in the making are "Moon Over Burma" and "Road to Zanzibar" (presumably an epilogue to "Road to Singapore") while "Driftwood", a play about (you guessed it) the South Seas, is being written for her — and her sarong.

DOROTHY LAMOUR

• • •

With the New York World's Fair going into its last month (but positively!), the zero hour push is on. Celebrities of stage, screen, and radio are being rushed in to heighten box office appeal, with days being named for them on the theory the star's fans will turn out to view their idol at close range. Mark Warnow Day at the Fair, for example, brought out thousands of radio listeners who hitherto were acquainted with him only as the unseen musical director of the Hit Parade broadcasts. Among other events, Warnow, on a busman's holiday, led the Fair band.

• • •

RECORD NOTES: Few singers, classical or popular, can match Bea Wain for perfect enunciation as demonstrated in her delightful Victor recording of "I Could Make You Care" and "I'm the Lonesomest Gal In Town" . . . It's difficult to imagine Bing Crosby substituting for Paul Robeson, but this he does, and capably, in "Ballad for Americans" which Decca has put up in an attractive album . . . Eddy Duchin has two smooth ballads in "Trade Winds" and "It Was Music" for Columbia . . . Ruth Lowe, who wrote "I'll Never Smile Again", record favorite of the season, will make a personal appearance theatre tour.

Paid Political Advertising

THIS MAN IS WANTED

for Service in the PUBLIC DEFENSE!

SAN MATEO COUNTY'S rapid growth in population is causing a veritable "flood" of ideas for new and added county services, improvements and facilities. Many of these are desirable and necessary; others are prompted by mere enthusiasm.

While we can be proud of the percentage of gain in population, the percentage of GAIN IN GOVERNMENTAL SPENDING is something else!!
It is not HOW MUCH CAN WE SPEND, but HOW BEST CAN IT BE INVESTED that should be considered by our county supervisors.

WANTED . . . NEEDED . . . for a wise, honest, business administration of county affairs are the proved business abilities of

DANIEL A. DOLAN

Candidate for

Supervisor--1st District

(To be elected by the vote of the entire county)

DOLAN ... a Business Man ... favors NO expenditures for NON-ESSENTIALS. He believes in a "DOLLARS WORTH" for every DOLLAR expended.

Spice From Ports of the Sun

By Jane Floyd Buck

It may seem fantastic that the ancestors of those small cloves Mrs. American Housewife uses to season an apple pie helped to change the map of the world—but, nevertheless, it is true.

Man's quest for spices not only led to discovery of a continent but also inspired many another voyage that revealed unknown lands and established the fact that the world is round.

Every school child knows that Columbus found America while seeking a shorter route to the spices of India. Ferdinand Magellan, Portuguese soldier and explorer, made the historic voyage that led him finally around the world in the 16th century while searching for a shorter route to the Spice Islands, now a part of the Netherlands East Indies.

However, spices were playing their role in history long before that time. Alaric, King of the Goths, laying siege to Rome, withdrew when the Emperor met his demand for 5,000 pounds of gold, 30,000 pounds of silver—and 3,000 pounds of pepper! In Biblical times, it is related, "Now when the Queen of Sheba heard of the fame of Solomon, she came to Jerusalem with a very great retinue, bearing spices and very much gold and precious stones. Then she gave the king 120 talents of gold and a very great quantity of spices and precious stones."

Although there are only 30 different kinds of spices there are 16,777,215 possible flavor combinations in the spice world!

Today, spices are grown much as they were in earlier times. However, modern methods of chain store direct importation, distribution and merchandising have brought the prices of the finest spices down to a few cents. Thus, even the housewife who must count her pennies can season her foods with condiments which in another era were worth considerably more than their weight in gold.

For instance, the largest of America's chain systems last year shipped from its New York plant for consumption of American housewives 3,060,982 pounds of spices, having a value of approximately $1,500,000. In an earlier era these spices would have been worth a fantastic figure and would have been available only to the wealthy. Brought from the far away ports of the sun—Zanzibar, Madagascar, the Malay Peninsula, Africa, China, Japan, India and the East Indies—the spices were transported and distributed with such swiftness their original oils remained intact. This, modern science has discovered, is essential to the true flavor of these precious seasonings.

One spice, pepper, has become so important a part of modern business that a Pepper Exchange was established in New York for trading in this condiment alone. Since establishment of the exchange in 1937 approximately $35,000,000 worth of pepper is dealt in annually at the rate of 14,000,000 tons a year.

Last year this country consumed 100,000,000 pounds of spices, this amount including those used commercially for candies, meats, and puddings. The wise man who called spices the "soul of food" knew whereof he spoke.

Even Christmas Simpler

Christmas tree decorations in Canadian homes will be simpler this year because of the war. Unless merchants can refill demands from stocks, ornaments will not be available. Most of them are made in Germany.

Bamboo Fishing Rods

Tonkin bamboo is ideally suitable for fishing rods because of its elasticity, light weight and strength.

Reversed Bill of Fare

At formal Japanese dinners, sweets are served first, and sour pickles last.

Bow and Arrow Hunter

At 30 yards with bow and arrow—too close to be comfortable—Charles ("Tex") Stone of Dallas has bagged one of the largest mountain lions ever killed in Texas. Stone uses the risky, ancient weapon because an arrow, he says, does less damage to museum specimens and that is what he stalks. Tanned, slender, partly bald and 39 years old, Stone estimates he has killed 400 wild animals in Africa, South America, India, Australia, Mexico and the United States since 1920. All were shot at a range of less than 35 yards. He bagged a male mountain lion that weighed 220 pounds in the Fort Davis mountains.

Light Ray Messages

Messages by light rays were described as an almost interception-proof means of communication during warfare by Dr. Phillips Thomas, research engineer of an Indianapolis electric company. The method would be especially effective in communication between the ground and planes in the air, he pointed out, asserting a message could be intercepted only by cutting into the beam directed at the plane. Other electrical developments demonstrated were a "sterilamp" which he explained would destroy all germs in a given confined area, such as a hospital operating room, and a "black light" which produces various colors.

Hunting for Hero

Boy Scout E. L. Montgomery of Parsons, Kan., saved a man from drowning in the Elk river last July 4, but he forgot to get the fellow's name. It took Scoutmaster Dan Devin weeks to track him down so he could get him to sign a petition recommending a medal for Montgomery. He said he was glad to know who it was that saved him because the day it happened he was too excited to inquire.

Brazil First 'America'

The name America was first applied to central Brazil, in honor of Amerigo Vespucci, who claimed its discovery. It was first applied to the whole known Western world by Mercator, the geographer, in 1538.

Carlsbad Cavern Discovery

The famous New Mexico Carlsbad caverns were discovered by Jim White, a cowboy in 1901. Seeing what he believed to be a column of black smoke rising from a distant point on the mesa, he investigated and found it to be a stream of bats pouring from the subterranean cavern.

Paint Helps Sales

Seeking to improve distribution of its open bed springs a firm did them in silver aluminum paint. Sales jumped 25 per cent.

Tricky Language

To be able to read an ordinary newspaper, a Japanese must know approximately 5,000 language characters.

Mahogany's Scientific Name

The scientific name for mahogany is "Swietenia." This name was given it by Nicholas Jaquin of Leyden, who was sent to the West Indies by Francis I, of Austria, to study the flora of that region. The name honors Geraard van Swieten, botanist and physician, also of Leyden.

Sunken Treasure

Still in the wreck of the Fannie & Jennie, Confederate blockade runner lying off the beach at Wrightsville, N. C., is a gold and jeweled sword sent to General Robert E. Lee by British sympathizers.

North Carolina Cigarettes

Of the 160 billion cigarettes manufactured annually in the United States, approximately 86 billions are produced in North Carolina.

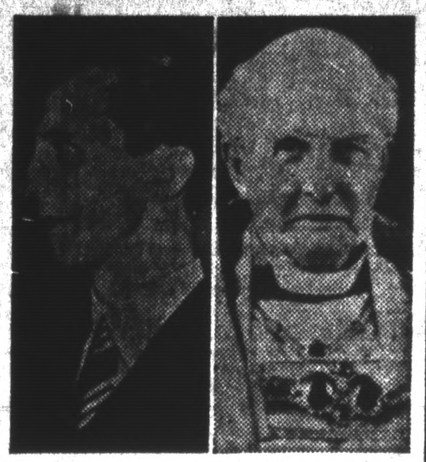
POULTRY SPECIALS

Birthdays of the Week



Two men who observe their birthdays this week live in countries that are fighting on opposite sides in the present war. Tuesday marked the forty-third birthday of Dr. Paul Joseph Goabbels, German minister of propaganda. The seventy-sixth birthday of Dr. Cosmo Gordon Long, ninety-fifth archbishop of Canterbury, was celebrated yesterday.

Scouting the Shops

(Continued from Page 1)

you can buy three cans of deviled meat at Vireno's Market.

ELEVEN: after we finish cheering for our home-town ELEVEN, guess what we do? We go down to Milo's Market and we eat and eat and eat. See their specials on pages 6 and 7.

TWELVE: if you have 6 eggs plus 6 eggs (according to the third grade arithmetic) you get TWELVE eggs, or one dozen. Try this at Robertson's Egg Store for really good results.

THIRTEEN: is THIRTEEN your lucky number? What is? Don't miss it! You can't afford to! The big drawing Saturday, we mean, down at Westlake Market, sponsored by Casperson's Eggs & Butter.

FOURTEEN: we heard FOURTEEN people say today that Lucca Ravioli company is selling pineapple juice for 5c a can.

FIFTEEN: "FIFTEEN men on a dead man's chest . . ." didn't have any more fun than you'll have with a new Zenith radio from Byrne's.

SIXTEEN: there are SIXTEEN million ways of washing clothes, but personally we let the Daly City Cleaners worry about that angle of it. Why don't you too?

SEVENTEEN: we'd like to tell you SEVENTEEN times about the delicious almonds and Brazil nuts at Farmers Market this week.

EIGHTEEN: take our word for it, EIGHTEEN dozen doughnuts from Daly City Creamery won't be too many for that next holiday party of yours. They're good!

NINETEEN: when we drew this number out of the typewriter we didn't know what it meant for a minute. But we're willing to guess that NINETEEN means trade at home with your local merchant and watch for the next edition of your Daly City Shopping News.

Poland Still on Map

Although Austria and Czechoslovakia have been rubbed off European maps, United States commercial mapmakers are standing firm on Polish territory. The familiar pink area used to designate the former Republic of Poland will remain unchanged until the war in Europe is over, according to William Tauch, representative of a large map-making concern.

Doubles in Mirrors

The balcony of the Forum restaurant, which opened recently in Chicago, is designed as half a room, but diners feel that they are in a whole room twice as large. The room is "completed" by reflection from a huge plate glass mirror which covers one wall. The lighting fixture is a half-circle of plate glass, also "completed" by the mirror.

Texas Sour Grapes?

A single grapevine in Rosebud, Texas, covers the entire side of a building and is half a block long.

Bring on the HOT SOUP

(and the hotter, the better)

. . . s up a meal to a perfect start

says Dorothy Greig

ONE of the most appetizing sights in the world on a cold day is a great steaming tureen of thick, savory soup arriving on the table. The soup looks and tastes so good. It is a heartening, stimulating beginning to a meal.

Nowadays, too, our choice of soups is wider than ever before. Thick soups, thin soups, racy soups, bland soups . . . whatever we want in the way of soup is to be found on the grocer's shelves.

Then there's the trick of combining one soup with another — and that opens up yet another range of flavors. For instance:

You can make a meal of this one—

Hearty Soup

2 frankfurters (sliced)
1 teaspoon butter or bacon fat
1 can condensed bean with bacon soup
1 can condensed pea soup
1 can milk
1 can water

Cut the frankfurters in ⅛ inch slices and cook them in the butter or bacon fat. Then add the bean with bacon and pea soups, the milk and the water. Heat and serve immediately. Serves 5-7.

• • •

This next would never do for Pa and the boys after a hard day's work. But it's just about perfect for Mother's luncheon party:

Tomato Consommé

1 can tomato juice (14 oz.)
1 can condensed consommé

Heat the tomato juice and consommé together. Put one spoonful of whipped cream on each serving of soup. Serves 3-4.

• • •

For the youngsters' lunch, here is a particularly good suggestion—

Highland Vegetable Broth

1 can condensed Scotch broth
1 can condensed vegetable soup
2 cans water (using soup can as measure)

Combine them. Add the water and heat. Serves 5-7.

• • •

Racy in flavor, yet satisfyingly hearty—this is a love of a soup—

Bisque of Tomato and Clam Soup

1 can condensed clam chowder
1 can condensed tomato soup
2 cans milk

Stir the tomato soup into the clam chowder. Then add the 2 cans of cold milk (using the soup can for a measure). Heat to the boiling point, but do not boil. Serve immediately. Serves 5-7.

Hearty Soup—thick and savory, almost a meal in itself.

Power Boat in Hunting

Hunters use power boats from which to shoot deer in the tidewater area of eastern North Carolina.

Nursery-Room Hint

Pictures for children's rooms can be made washable by covering them with white shellac.

Aerial Sleeve Target

A new type of aerial sleeve target for anti-aircraft firing practice is being developed by army officers. Rubber compartments containing titanium tetrachloride enable gunners to record direct hits immediately. When struck, the new target emits a dense column of smoke.

Gorillas Are Sissies

The ferocity of the gorilla, terrifying "boogey" of screen and fiction, has been disproved by explorers. They agree in saying that the animal is extremely shy and difficult to catch sight of, often hiding in the thickest part of the woods on the approach of man.

Abyssinian Burial Tree

In Abyssinia and other parts of Africa, the baobab tree is often used as a tomb and due to some property of the wood bodies placed therein become mummified.

Egyptians Cultivated Grapes

Grapes are believed to be the first fruit cultivated by man. Grape seeds at least 3,000 years old have been found in Egyptian tombs.

Ways to serve one of the nation's favorite foods . . .

PORK and BEANS

suggested by Dorothy Greig

A CERTAIN small boy I know announced importantly one day, "I like beans." "Why do you like pork and beans?" inquired his grandmother. "Because," said our young fry patting his round little tummy, "they fill me up nice and full."

Tasty Bean Sandwiches can be quickly whipped together for a quick supper or luncheon dish.

Well, pork and beans do seem to satisfy hunger completely. That's one reason they send young and grown-ups alike on their way contentedly. Another reason is their tender nut-like flavor . . . the result of lean bacon pork and zesty tomato sauce slow-cooked together until these mingled flavors get right down inside the beans.

Of course, pork and beans are a fine dish, heated just as they come from the can. That's just one way of serving them, however. There are others. For instance, how about this sandwich?

Tasty Bean Sandwich

1 can (16 oz.) pork and beans
3 tablespoons sweet relish (India relish, sweet pickle relish)
2 tablespoons salad dressing or mayonnaise

Mash the beans and add relish and salad dressing, mix thoroughly. Spread between slices of toast or bread. Makes 8 sandwiches.

Place one of these on a plate, add sliced tomatoes and lettuce on the side . . . good—and filling. For a quick supper on a Sunday evening, I recommend it.

My next suggestion for pork and beans is a hot casserole. I like this particularly well on a day that's sharp.

Tomato and Bean Casserole

1 can pork and beans (16 oz.)
1 tomato
3 slices bacon
Salt and pepper

Put the pork and beans in two individual casseroles. Make a nest in the top of casserole of pork and beans and place one-half tomato in each. Sprinkle tomatoes with salt and pepper. Cut the slices of bacon in half and place three pieces over beans and tomatoes. Bake in a moderate (350°) oven for 20-25 minutes.

Who Writes the Sermons?

Simply by reaching up and pulling a string attached to a small bell, Funnyface, seven-year-old cat of Rev. and Mrs. Stanley Knott, of Abington, Mass., lets his master or mistress know he wants to enter the house. He rattles a can opener when in need of nourishment.

Learning Foreign Languages

Students in foreign schools acquire a greater mastery of languages than students in American schools, says the Columbia University Press.

'Dressing-up' Onion

Farm experts are "dressing up" Louisiana's Creole onion by inbreeding and selection to improve its yield, quality and market value.

Men Surpass Women?

The male of the human species is superior in intelligence to the female, according to Professor William Reuter, Westminster college psychologist. Reuter asserts, on the basis of tests, that it has been proved that woman rarely becomes successful through her own ability. Men have always beaten women in every field, even in their own domain of cooking and dressmaking, according to Reuter. He said the difference in innate intelligence between the sexes may be due to the fact that the masculine brain is larger.

Fire-Fighters Awards

Medals for heroism in fighting forest fires are awarded by the American Forest Fire foundation.

World's Greatest Housekeeper

Probably the world's greatest housekeeper is the Pullman company which in a single year purchased 220,528 sheets, 157,780 pillow cases, 20,253 tidies, 455,820 hand towels, 24,318 headrest covers, 13,692 napkins and 3,200 table cloths, the Association of American Railroads reports.

Rough Customer

A. C. Cooper donated Cricket, a six-year-old rhesus, to the Fort Worth, Texas, zoo. During his first 10 minutes in the "monkey island" colony at the zoo Cricket slapped down seven other monkeys, whipped two raccoons and grabbed three fish from the moat surrounding the island.

Buzzard Migration

The annual southward migration of buzzards was so great through San Gorgonio pass in California this year that the birds blacked out the sky. More than 4,000 of the birds were estimated to have made the mass flight south through the pass.

Aluminum Softball Bat

A new product of the metal industries is an aluminum-alloy softball bat designed by a company in Cleveland. Weighing the conventional 32 to 33 ounces, the bat does not sting the hands because it is made of metal, and it cannot break in actual play.

Parish Plans Thanksgiving Whist

St. Michael's parish will sponsor its annual benefit Thanksgiving whist party Tuesday evening, November 12, it was announced today.

Because of the huge crowds which have overflowed the parish hall at 32 Broad street on previous years, this year's event will be staged at the YMI hall at 50 Oak street, San Francisco.

Playing will begin promptly at 8:30 p. m., with turkeys and many other attractive gifts as prizes. Mrs. T. Foley, chairman, cordially invites the public to attend.

Radio Announcers' Diction

One of the requirements of the major radio networks is that announcers' diction should be free of all sectional accents.

Eight Ounce Gloves

The International Amateur Boxing federation has stipulated gloves in bouts under its jurisdiction must weigh eight ounces, the leather and stuffing net to exceed four ounces each.

Regular meeting, Capistrano Council No. 2712, Knights of Columbus, Theatre hall.

JEWELED IN COPPER

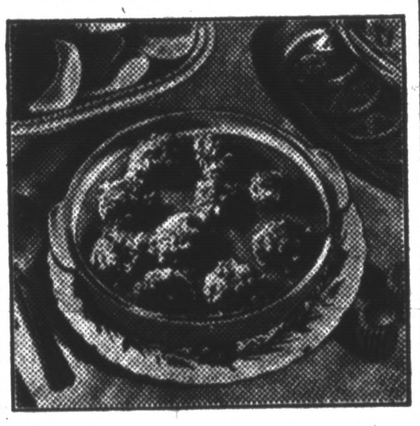
COPPER, oldest of the metals of commerce, which was first discovered before the dawn of history on the Island of Cyprus by a half-savage tribe has and continues to find many new uses. Recently new jewelry ornaments, made from this age old metal, have been fashioned and are extremely popular with the fair sex. Copper with small Aztec figures applied in silver is a new California art discovered by Anne Shirley. She has had a great many bracelets and necklaces made for herself and says that she is sure college girls are going to "go for copper" in a big way.

Above, is the beauteous Anita Louise featured in Columbia picture's "Glamor for Sale." The jewelry she is wearing has become popular not only in California but throughout the entire United States.

Two-bite size
MEAT BALLS
simmered in Tomato Gravy

by Dorothy Greig

ONE thing I find exciting about cooking is the way in which improvements on old dishes are always bobbing up.



For instance, look at meat balls, a good old standby dish from 'way back. In the recipe below we show how to add new character to them. The combination of sage and other seasonings gives rare zest. Then we simmer the balls in condensed tomato soup . . . more lively flavor for the meat and a rich tomato gravy besides.

We make the balls much smaller than usual, too—no bigger than an overgrown marble—and we use a hot oven. All of which cuts down on the cooking time.

In making, roll the balls loosely. That keeps them tender and juicy. The rice as it cooks will swell a little, also, and needs room.

Meat Balls in Tomato Gravy

1 pound ground beef
½ cup rice (uncooked)
½ cup chopped onion
½ teaspoon salt
Pinch of pepper
1½ teaspoons sage
2 tablespoons chopped parsley
1 egg
1 can condensed tomato soup

Wash the rice and mix it through the ground meat. Then add the onion, seasonings, sage, parsley and egg, slightly beaten. Mix thoroughly. Form into balls (about 12-14 balls) and put into a deep baking dish. Heat the can of condensed tomato soup with 1 can of water and pour over the meat balls in the casserole, having the balls well covered. Place in a hot oven (375°-400°) in a covered casserole, and bake 1 hour and 15 minutes. Serves 6-7.

WEDNESDAY, NOV. 6

9 a. m.—
Regular meeting, Well Baby Clinic, San Jose and Flournoy.

10:30 a. m.—
Sewing, Mothers club of Our Lady of Perpetual Help school, 601 Hanover.

11 a. m.—
British War Relief, Daughters of Israel, 67 Los Banos.

1:30 p. m.—
Executive board meeting, Jefferson Union high school PTA, 428 Irvington.

2 p. m.—
WHIST, CATHOLIC LADIES' AID SOCIETY, BRANCH 59, ST. MICHAEL'S HALL, 32 BROAD STREET.

3:30 p. m.—

'A Dog's Tale'

Mark Twain's "A Dog's Tale" was first published in Harper's magazine in December, 1903. Subsequently it was privately printed by the National Anti-Vivisection society. In 1904 Harper's brought out the story in book form.

Probating Wills

It is necessary that any will which is produced must be probated. This is for the double purpose of protecting the wishes of the deceased and the rights of his declared heirs. It also assures that any government taxes will be paid.

U. S. Outlying Territory

The total outlying territory of the U. S. is 711,606 square miles, the total continental area, 2,026,789 square miles.

Seventeenth Century Employers

Believing that it was necessary to threaten employees with hunger in order to get more work from them, Dutch and English economic literature in the Seventeenth century stressed the necessity of lowering wages to the minimal level of subsistence, says a study of The Evolution of the Classical Wage Theory, issued by the Columbia University Press.

Nickel in Television

Television promises a new outlet for nickel. Vital as the device that translates the electrical impulses into visual patterns, the cathode-ray tube may require up to eight times as much nickel in its construction as does the conventional wireless tube. Associated with it in the receiving set are 18 to 36 radio tubes, as compared with 4 to 16 employed in the metal and its alloys are also used in the transmitting equipment.

Giant Electric Shovel

A giant electric shovel, which will be able to dig through earth as deep as a six-story building, wide as a four-lane highway and deposit it 220 feet away, is under construction at Marion, Ohio. It will be used in strip mining work in Indiana coal fields.

Now It's a Malady

School children who play "hookey are prompted to do so by an uncontrollable malady, in the opinion of C. T. Stewart, assistant director of census and attendance, Atlanta, Ga. So, instead of inflicting punishment, efforts will be made to discover the cause and take suitable curative steps.

At Daly City Theatre

Heralded as rollicking entertainment "Young People" stars Shirley Temple, Jack Oakie and Charlotte Greenwood(center), now playing at the Daly City theatre. This latest 20th Century-Fox hit promises movie fans a whole show full of gay good time and has been called Shirley's best to date. Others in the sparkling supporting cast include Arleen Whelan, George Montgomery and Kathleen Howard. Companion feature is "Three Faces West."

Strength of Tea

A pound of tea makes from 150 to 200 cups, depending on the strength desired.

Japanese Butter Export

Although the Japanese eat little butter, Japan is one of the world's leading butter-exporters.

Ancient Reptile Skeleton

The skeleton of a reptile that lived in the middle Permian period, 200,000,000 years ago, has been mounted in the Transvaal museum at Pretoria, South Africa. The work of mounting the skull, 26 vertebrae, shoulder girdle and the right hind leg required 20 years.

Rural Illiteracy

One rural youth in 20 is illiterate as compared to one city youth in 100.

Forty-five Pounds of Pennies

Forty-five pounds of pennies were collected by members of the Swedish Evangelical Mission church at Atchison, Kan., this year. They were the savings from small banks of members. The money will go to missions in China.

Japanese Like Baseball

To Japanese, who are nearly 10,000 miles away, the annual World Series baseball games in America are of major sports interest.
